

BIO 110L Principles of Biology I (CRN 13485 Instructor: Dr. Thomas Eickbush)

A first year only course designed for students with little biology background. This typically means they last took Biology their freshmen or sophomore year of high school. **All students will take part in a weekly study group run by a graduate student mentor. A permission code is required to register for this course and can be obtained from the student's first year advisor.** If students have questions they should contact Dr. Eickbush in person Friday morning at the "Open House", or Friday afternoon at his office (HH334a).

Both workshops (2 hours) and labs (3 hours) will be held on a bi-weekly basis. They will run on an A/B schedule. These are required so make sure to keep room for these in your schedule.

| Workshop Times Offered | # of Sections Offered (8 students/section) |
|-------------------------------|---|
| W 11:00-13:00 | 2 |
| W 13:00-15:00 | 2 |
| W 17:00-19:00 | 2 |
| W 18:15-20:15 | 2 |
| R 16:50-19:30 | 2 |
| R 18:00-20:55 | 2 |
| R 19:00-21:00 | 2 |

| Lab Times Offered | # of Spaces Available (18 students/section) |
|--------------------------|--|
| W 13:45-16:45 | 36 |
| W 17:15-20:15 | 36 |
| R 17:10-20:10 | 36 |
