

Directions to Dr. Grayhack's office in the Medical School

My office (Room 3-7415) is on the third floor of the Medical School. You can enter the Medical School on Elmwood Ave at a main entrance to the Aab Kornberg Building; there is a circular drive with a central clock next to this entrance. It is the closest entry relative to Hutchison Hall. This is a relatively new addition; it is on one end of the block long building (as far away from the hospital as you can get). Enter the main large atrium and then turn left into the older part of the Med School. You will go through an open set of double doors past the dean's office, past a set of computers and into a narrower corridor with Med School Admissions. Take the first right and then a quick left into a bank of elevators (the Yellow elevators). Come up to the third floor and exit towards the corridor; there are washrooms in the "wrong direction". Turn left, through a set of doors and then left again (corridor turns) and my office is approximately four (4) doors down this hallway.
