

INORGANIC SEMINAR

Title: “Applications and Mechanism in Hydrogen Transfer Catalysis”

**Professor
Travis Williams**

University of Southern California
Loker Hydrocarbon Research Institute

**Monday, February 18, 4:00 pm
473 Hutchison Hall
University of Rochester
Department of Chemistry**

Abstract:

This talk will describe the application of iridium chelates in hydride transfer reactions of use in areas from complex molecule synthesis to fuels chemistry. It will also how how homogeneous catalysis is now being used to find sustainable solutions in 21st century large-scale manufacturing.

Host: Professor William Jones • email: jones@chem.rochester.edu
