

ORGANIC SEMINAR

FRIDAY, JANUARY 15TH,
2016
9:00 A.M.

HUTCHISON HALL 473

UNIVERSITY OF
ROCHESTER
DEPARTMENT OF CHEMISTRY

GUEST SPEAKER:
DR. JOSEPH BARENDT
CHIRAL TECHNOLOGIES, INC.

“THE QUEST FOR SINGLE ENANTIOMER PHARMACEUTICALS”

Abstract: As drug candidates become increasingly complex, the tools required to advance these potential life-saving drugs through the pipeline are critical to the future of the industry. The seminar will focus on the need to analyze intermediates and final drugs, to new approaches to designed scalable production processes for chirally-pure drugs.

Host: Professor Lewis Rothberg, email: lrothber@ur.rochester.edu
