Heath Care and the Law: PH236 and PSC236
Syllabus

Instructor: Margie Hodges Shaw, JD, MA (philosophy), Ph.D. (education)
Office: Room G11110A MRBX Building
Phone: 275-0174 (Medical School office)
E-mail: Margie_Shaw@urmc.rochester.edu (preferred method of communication)
Office hours: By appointment.

Credit hours: 4 credit hours

Time: Tuesdays and Thursdays 9:40 – 10:55

Place: CSB 209

Course Description
This course provides an introduction to the legal foundations of health care in America. It is the responsibility of the American government to promote and protect the health and welfare of the public while respecting the interests, and upholding the rights, of the individual. The content of this course addresses how the law balances these collective and individual rights. The material covers a broad range of legal issues in health care, including autonomy, privacy, liberty, and proprietary interests, from the perspective of the provider(s) and the patient.

Topics include laws related to physical and biological interventions to control infectious disease; regulation of medical services, medical professionals, and standards of care; medical malpractice and liability; access to health care, including public and private insurance; reproductive rights; rights and obligations in medical decision-making; institutional liability, and intellectual property.

Course Objectives:
Upon completion of this course students will have a general understanding of the role of governments and law in promoting and protecting health, including the functions of courts, legislatures, and administrative agencies in relation to health care law and policy; understand the relationship between the legal system, health care providers, and patients; be able to identify and analyze legal issues in health care; and be able to effectively communicate, both orally and in writing, the interpretive understanding of a case, statute, and complex regulatory scheme.
Specific learning objectives include the ability to:
1. Distinguish and discuss the role of the federal government and the various state governments in promoting and protecting the health of citizens;
2. Identify, distinguish, and discuss the relationship between community health issues and individual health issues;
3. Identify and analyze legal issues in health care; and
4. Communicate the interpretive understanding of a case or statute, or a complex regulatory scheme, both orally and in writing.

**Enrollment:**
Cap of 40 students.

**Prerequisites:**
Not open to freshmen.

**Course Materials:**
Required texts: None
Selected articles: All required reading material is available on the Blackboard site for this class either as a PDF file or as a link.

**Course Policies and Procedures:**
Class will begin and end promptly.

Class attendance is required and participation is expected. Attendance and informed participation in discussions and group work provide me with evidence that you completed assigned readings in advance and are engaged in the materials.

**People often have strong responses to legal, ethical, and policy issues in health care. Disagreements are common. An important skill in legal and health professions is the ability to discuss various viewpoints in an appropriate manner. Class comments and discussions must be relevant and respectful of others.**

In addition, as a courtesy to fellow students and me, please note that pagers and cell phone must be turned to a silent mode during class. Please limit in class computer use to note taking. Checking mail and surfing the web are examples of behavior that are not courteous and may distract other students. Behaviors that distract others will result in decreased participation points.

**Academic Integrity:**
Written work must be original and students must cite all reference sources according to the Chicago Manual of Style. Academic integrity is expected. For guidance on academic integrity and plagiarism, please refer to the College Academic Honesty Website at <http://www.rochester.edu/College/honesty/>. If you have any questions about academic honesty, please do not hesitate to contact me.

**Late Assignments:**
Students must complete short answer assignments prior to class and hand them in before the class begins on the date they are due. These assignments are intended to help direct the reading of the assigned material and facilitate class discussion. Assignments turned in
late will not be graded. To address unexpected events, I will drop the two lowest short answer assignment grades. If a student anticipates an absence, I will accept an assignment early.

**Final Grade Scale**
Grades for assignments for this course are assigned a numerical value. The final grade is comprised of the cumulative points earned.

- **A** = 96-100  (Superior)
- **A-** = 92-95
- **B+** = 89-91
- **B** = 85-88  (Above Average)
- **B-** = 81-84
- **C+** = 78-80
- **C** = 74-77  (Minimum Satisfactory Grade)
- **C-** = 70-73
- **D+** = 67-69
- **D** = 64-66
- **D-** = 61-63  (Minimum Passing Grade)
- **E** < 60  (Failure)

**Americans with Disabilities Act (ADA):**
The University of Rochester is committed to providing equal educational and employment opportunities for individuals with disabilities, in accordance with state and federal laws and regulations, including the Americans with Disabilities Act (ADA) of 1991 and Section 504 of the Rehabilitation Act of 1973. To ensure equality of access for students with disabilities, the University provides reasonable accommodations, including auxiliary aids and modifications to courses, programs, services, activities or facilities. Exceptions will be made in those situations where the accommodation would fundamentally alter the nature of the program, cause undue hardship on the school, or jeopardize the health or safety of others. Accommodations must specifically address the functional limitations of the disability.

The process of receiving accommodations begins with self-identification. When a student chooses to self-identify a disability, documentation should be sent to Learning Assistance Services, see, <http://www.rochester.edu/College/las/>.

**Evaluation criteria and learning activities**
1. Participation 10%
2. Weekly short answer assignments 65%
3. Final exam 25%

**Schedule of topics, readings, and assignments**
August 30: Introduction to the course

September 4: What is health?

September 6: What is law?

Assignment: 42 U.S.C. § 1395DD “Examination and Treatment For Emergency Medical Conditions and Women in Active Labor”

September 11: Duties and powers of government
