Civil wars are now the most common form of armed combat in the world. However, as recent American forays in Afghanistan, Iraq, and Libya have illustrated, civil wars are rarely fought in isolation. Each side looks to foreign actors for military support or outright intervention. Meanwhile, international organizations like the United Nations mediate conflicts and initiate peacekeeping missions. As such, this course analyzes how the international system interacts with civil conflict.
Course Materials

Blackboard is difficult to work with. Thus, I will post all course materials on my website: wjsplainel.wordpress.com/pscir-265. Most importantly, this includes links to required readings, PDFs of lecture slides, and recorded videos of lectures.

Evaluation

Students will take three in-class midterms and submit two problem sets. Each comprises 20% of the final grade, which will be no worse than the following:

- $94\% < x$: A
- $90 < x \leq 94\%$: A-
- $87 < x \leq 90\%$: B+
- $83 < x \leq 87\%$: B
- $80 < x \leq 83\%$: B-
- $77 < x \leq 80\%$: C+
- $73 < x \leq 77\%$: C
- $70 < x \leq 73\%$: C-
- $x \leq 70\%$: Non-passing grades

Late Work

Absent any university regulations that provide exceptions, no late work will be accepted under any circumstance. This is because I will go over the correct answers in class.

Disclaimer

This syllabus is subject to change. Any changes will be announced in class. You and you alone are responsible for attending lectures and staying up-to-date.
