**Why Study Abroad?**

*Open your eyes to the world.* Invest in your future by developing cross-cultural skills that will enable you to communicate with professionals anywhere in the world.

*Enhance your career.* Learn how to function in a culturally diverse environment early on. Develop broader skills, and ability to adapt to new environments.

*Personal growth.* See your culture and yourself from a different perspective. Learn to appreciate other languages and cultures, while better understanding your own cultural values.

**Experience politics and international relations first hand!**

"While studying abroad may seem like a huge commitment or too much to handle, don't underestimate what your abroad program can do for you".
