

Syllabus: Intro to Stage Lighting and Sound ENG 172/173

S19

Instructor: Gordon G. Rice

Credits: 04

Day/s & Time/s: T & Th. 11:05-12:20

Lab Days & Times; **Light Lab:** TBA **Sound Lab:** TBA

Location: Todd 202F / Todd Theatre

First Class: 01/17/19

Labs begin: 01/18/19

Entrance Prerequisites: none, Intro to Theatre Technology recommended and helpful.

Course Description:

Introduction to the various types of equipment for lighting and sound in the theatre.

Practical introduction to the safe operation and handling of lighting and sound equipment, safety, tools and the science and history of these wonderful technologies.

Course Aims & Objectives:

- To introduce students to the various types of equipment available for lighting and sound for the stage.
- To develop necessary skills to safely operate lighting and sound equipment.
- To develop an understanding of the theories and practices associated with lighting and sound.
- To provide the foundation for further exploration in lighting and sound.

Required Texts:

Gillette, J. Michael, *Theatrical Design and Production*, 6th ed., McGraw Hill

Carter, Paul, *Backstage Handbook*, Broadway press

Other Recommended Reading:

Parker and Wolf, *Stage Design and Stage Lighting*, Wadsworth

Expectations and Requirements:

Regular / prompt attendance and active participation are essential components of this course.

- Complete reading and written assignments as scheduled.
- Positive / enthusiastic attitude.
- Respect for the tools / equipment, theatre and fellow students.
- Attend a performance of each of this semester's URITP Theatre Productions.
- Attend at least 2 outside Arts Events. See attached document

Recommended Attire:

Casual / work attire.

There will be occasions when class work will involve ladders, scaffolds and equipment that may be dirty.

Please-No open toed shoes / sandals or high heeled shoes.

Lab Requirement:

There is a weekly Lab component to this course. You are required to complete 60 hours minimum for a passing grade. The balance of your grade will be based on your attendance, enthusiasm, attitude, perseverance, following the rules and working collaboratively with staff and students. This

experience should be rewarding and enjoyable. **CELL PHONES ARE PROHIBITED DURING LABS**

Assessment:

Lab	50%
Active classroom participation	15% (if your late or absent – your not participating)
Tests/Written assignments	15% (these will/may occur without notice)
Arts Attendance	20% (see attached <u>Arts Explorer Initiative</u>)

Lab Requirement:

This requirement should not be taken lightly. 60 hours minimum required for a passing grade. Students are responsible "Clocking In/Out" their hours each lab session with the supervisor.

(report to your lab supervisor Charles Lawlor or Chris Granata).

Each student is expected to work approximately 4-6 hours per week. This will insure that you meet the 60 hour minimum by semester end. Lab grade will be based on the following criteria:

Note: This class is **not** an *easy* "A".....it will challenge your commitment, work ethic, maturity.

Attendance & Attitude 25%: Attending lab as scheduled, not arriving late , not leaving early.
Making arrangements for alternative times prior to scheduled hours.
Respect for others, tools and theatre.

Task Completion 25%: Positive, enthusiastic, supportive behavior goes a very long way!

Initiative 25%: Helpful, volunteering, not sitting around watching others work. Thinking ahead.
Proactive.

Skill Application 25%: Safety First. Safety glasses and hearing protection is available, use them!
Applying what you have learned. Maintain a clean, safe working environment. Clean up work area.

Lab Grade Rubric (50% of Final Grade):

- **20% = Weekly Lab**
- **50% = During the weeks of Load-In and Tech Rehearsals (25% each production)**
- **30% = Strike (15% each production)**

Hang & Focus:

The period between **02/15-23** and **04/12-19** is very crucial for Light Lab. This is when the lighting for the production will be positioned on the grid, cabled (hang) and focused. It is imperative that you arrange your schedule to maximize your availability during this time.

Strike: The dismantling and/or storage of scenery, lighting, sound, props & costumes

Attendance is mandatory: **03/09-10** and **05/04-05**. Precise times and schedule will be forthcoming.

Performances: Required

Students are required to attend a performance for each production. Write a brief reflection on the Technical Aspects of the production. Typed, double-spaced, Times 12 font. Please no more than 2 pages, at *least* 1 page. This is a critique on how successful the technology (**lighting, sound, video, scenery, props, costumes**) was to supporting / enhancing the performance...or not.

I expect a college level paper!
