UPBM Poster Session 2008

Friday, 10/17/08, 3:30 p.m. - 5:00 p.m.
Computer Studies Building, Room 209

[The UPBM Poster Session](#) is an annual tradition and now part of Meliora Weekend. Historically the poster session was designed to only display research from de Kiewiet Fellows. However, in 1998, the UPBM committee voted to broaden the scope of the presentation to invite other significant research done by biological science majors to be displayed with de Kiewiet research as well.

The UPBM poster session serves as an opportunity for interaction between students, faculty, and alumni to visit and discuss research. Refreshments will be provided.

Biology major participating in this year's UPBM Poster Session are:

Joseph Bedont '09, BNS
Matthew Brockway '09 BMG
Peter Dvorak '09, BBC
Anne Eshenour '09, BMG
Christopher Hergott '09, BBC
Colleen Kellenberger, '09, BBC
Myra Mathis '09, BBC
Chelsea McGuire '09, BMB
Kevin Van Bortle '09, BBC

Academic Opportunities and Special Programs for Students

Undergraduates receive extraordinarily strong education in their chosen field. In addition, the UR also offers many options beyond traditional course work. Visit:

<http://www.rochester.edu/college/academics/opportunities> to investigate opportunities that allow students to explore their individual interests even further.

Society For Undergraduate Biology Students (SUBS)

The Society of Undergraduate Biology Students at the University of Rochester strives to promote faculty-student interaction, to serve as a guiding force for those with interests in Biology, to provide networking opportunities through organized events, and to cater to the needs of the membership through member input.

For more information or to get in touch with an e-board member asap - email us at roc.subs@gmail.com. (We check daily, if not throughout the day!)

Upcoming Events

October 3 (Friday) 3:00 PM

Hutchison 316

Dr. Scott Sakaluk, Illinois State University

"Sexual conflict in gift-giving insects: chasing the 'chase away'"

October 10 (Friday) 1:00 PM

--RESCHEDULED FOR SPRING 2009--

Hutchison 316

Dr. David Goldfarb, University of Rochester

"Evolution of the metazoan importin alpha gene family: nuclear transport factors in the age of gametogenesis"

October 10 (Friday) 3:00 PM

Hutchison 316

Dr. David Shuker, University of Edinburgh

"Constraints on sex ratio evolution in a parasitoid wasp"

October 13 (Monday) 12:00 PM

Hutchison 473

Dr. Elizabeth Gavis, Princeton University

"Localized RNAs, localized translation, and developmental asymmetry"

October 17 (Friday) 3:00 PM

Hutchison 316

Dr. James Schulte, Clarkson University

"Evolution of viviparity in South American *Liolaemus* lizards"

October 17 (Friday) 3:30 PM – 5:00 PM

Computer Studies Building 209

UPBM Poster Session

October 20 (Monday) 12:00 PM

Hutchison 473

Dr. Mark Van Doren, Johns Hopkins University

"Vive la difference: The creation of sexual dimorphism in the soma and germline"

October 21 (Tuesday) 2:00 PM

Hutchison 316

Dr. Louise Vet, Netherlands Institute of Ecology
"Parasitoid functioning in a multitrophic context"

October 27 (Monday) 12:00 PM

Hutchison 473

Dr. Daven Presgraves, University of Rochester
"Speciation and genetic conflict in *Drosophila*"

October 31 (Friday) 3:00 PM

Hutchison 316

Dan McNabney, University of Rochester

"The genetic basis of behavioral isolation in *Drosophila*"

-AND-

Victoria Cattani, University of Rochester

"Genetics and lineage-specific evolution of a lethal hybrid incompatibility between *Drosophila mauritiana* and its sibling species"

Opportunities

Alaskan Observers, Inc. North Pacific Groundfish Observer Positions Available Year-Round:

<http://www.alaskanobservers.com/observer.html>

Albert Einstein Summer Undergraduate Research Program (SURP): <http://www.aecom.yu.edu/phd/index.asp?surp>

National Institute of Allergy and Infectious Diseases (NIAID), [Intramural NIAID Research Opportunities \(INRO\)](#)

Annual Biomedical Research Conference for Minority Students, abrcms@asmusa.org

Wadsworth Center Summer Research Program 2009 in Molecular and Cellular Biosciences
