

The Institute for Data Science Presents

Eric Horvitz

Director of Microsoft Research

Data, Predictions, and Decisions in Support of People and Society

MARCH 03, 2015 | EISENBERG ROTUNDA, SCHLEGEL HALL

Join Dr. Eric Horvitz, distinguished machine learning researcher, Fellow of the American Association for the Advancement of Science, and managing director of Microsoft Research to explore how data science is being used to advance the good of society. We will see how breakthroughs in large-scale data collection, predictive models, and decision-support systems are solving previously intractable problems in clinical medicine, public health, transportation, disaster recovery, and many other areas. Horvitz is a member of the Advisory Committee for the University of Rochester's Institute for Data Science.

11 a.m. to noon presentation, followed by an open reception with lunch from noon to 1 p.m.

For more information, contact Michelle Saile at (585) 275-5288 or michelle.saile@rochester.edu or go to www.rochester.edu/data-science.
