PhD Student Annual Evaluation

Self-evaluation is an important tool for PhD students to reflect on their progress of the previous year as well as to help determine their goals for the remainder of their study. Please complete this form before forwarding to your advisor for review.

Name	URID	Advisor

1. Core Disciplinary Knowledge

Reflect upon your progress in acquiring an understanding of the core knowledge of the discipline (e.g. performance in coursework, qualifying exams, and independent reading). Identify any areas where you would like to improve your understanding next year.

Self evaluation	Plan for next year

2. Research Skills and Agenda

Reflect upon your progress in developing a research agenda and the skills necessary to carry out that agenda. Identify any research skills you would like to improve next year.

Self evaluation	Plan for next year

3. Scholarship

Reflect upon your progress in producing and disseminating scholarly work (e.g. research presentations, posters, papers published/submitted/in progress). Identify any planned scholarly publications or presentations over the next year.

Self evaluation	Plan for next year

4. Teaching

Reflect upon your progress as a teacher and mentor (e.g. TA-ships, guest lecturing, mentoring undergraduate students in lab). Identify your plan to improve your teaching and mentoring skills over the next year.

Self evaluation	Plan for next year

5. Professionalization

Reflect upon the professionalization activities you undertook this year (e.g. internships, grant writing experience, attendance at workshops). Identify your plan to develop these skills over the next year.

Self evaluation	Plan for next year
