Course Goals:

This course is designed to give students a background in the causes and consequences of the profound change in political, economic and social changes that have so profoundly altered the world over the past five centuries, and a basic knowledge of both classic and contemporary scholarly accounts of these changes. After describing political and economic conditions in the pre-modern world, it describes how a distinctively “modern” political economy emerged in Western Europe, how this political economy became pervasive over the rest of the world, and the long term and continuing consequences of these changes. The reading list mixes historical and social scientific accounts, and the mixture is designed to allow us to view events in light of wider theorizing, and to examine the historical context in which these theories are situated.

Grading:

Class Participation — 20%

Reading Comprehension Quizzes — 55% [Lowest Score dropped]

Take-Home Final — 25% (0% WI)

Final Paper —(25% WI)

Course Policies:

Unexcused late work will be penalized a whole letter grade, and an additional letter grade for every additional 24 hours of lateness. Plagiarism or cheating will be treated seriously and reported to the Board of Academic Honesty. Students will be able to make up one quiz by submitting a 750 word reading response. No other absences will be excused except by doctor’s note.

Course Requirements:

Attendance and Reading: Students will be graded on their attendance and participation in discussion classes, indicated in individual weeks.

Quizzes: Quizzes will be administered orally in the first thirty minutes of class and immediately before class, and will require students to identify and discuss key concepts from that week's readings. Six students will be randomly selected for ten minute quizzes each week.

Final: A final exam will ask students to write two short essays on themes covering the whole of the course material.

Writing Intensive Students: WI students must write a twenty five-page research paper on a topic related to the course material. The topic must be approved orally by the professor before the 8th week of class. The paper itself is due on the last day of class.
